

WOODLAND M-PACT®

TACTICAL HAND PROTECTION

The Woodland M-Pact® is designed to protect and conceal military and special forces in mountainous regions with varying vegetation. Impact-absorbing Thermal Plastic Rubber (TPR) delivers flexible protection in the field against impact injuries and skin abrasions. Our patented Impact Guard™ frees the index finger for smooth trigger guard entry and mobility during hard-charging operations. The dual-layer internal fingertip construction reinforces your thumb and index finger to provide improved abrasion resistance. XRD® padding in the palm absorbs impact and vibration to reduce hand fatigue when you're fully engaged.

KNUCKLE GUARD

Impact Guard™ frees the index finger and molded Thermal Plastic Rubber (TPR) disperses impact and skin abrasions.

REINFORCED FINGERTIPS

Dual-layer internal fingertip construction reinforces the index finger and thumb.
